Chapter I

Consignes

- Only this page will serve as reference, do not trust rumors.

- Watch out! This document could potentially change up to an hour before submission.

- Make sure you have the appropriate permissions on your files and directories.

- You have to follow the submission procedures for every exercise.

- Your exercises will be checked and graded by your fellow classmates.

- On top of that, your exercises will be checked and graded by a program called Moulinette.

- Moulinette is very meticulous and strict in its evaluation of your work. It is entirely automated and there is no way to negotiate with it. So if you want to avoid bad surprises, be as thorough as possible.

- Moulinette is not very open-minded. It won't try and understand your code if it doesn't respect the Norm.

- Using a forbidden function is considered cheating. Cheaters get `-42`.

- If ft_putchar() is an authorized function, we will compile your code with our `ft_putchar.c`.

- You'll only have to submit a main() function if we ask for a program.

- Moulinette compiles with these flags: -Wall -Wextra -Werror.

- If your program doesn't compile, you'll get `0`.

- Exercises in Shell must be executable with /bin/sh..

- You cannot leave any additional files in your directory other than those specified in the subject.

- Got a question? Ask your peer on the right. Otherwise, try your peer on the left.

- Your reference guide is called `Google / man / the Internet / ...`.

- Check out the "C Piscine" part of the forum on the intranet.

- Examine the examples thoroughly. They could very well call for details that are not explicitly mentioned in the subject...

- By Odin, by Thor ! Use your brain !!!

Chapter II

Foreword

It was not a good evening for Vic Soontobedead.

Since they had settled on the coast with Nick Bauer, Vic spent his days shopping. Getting a discount by showing his love to the cashier with his gun kept his bank account intact. Oh! The charm of the countryside, the picturesque of its inhabitants, all within a few hours of a real state: New Jersey, it really was the dream place for Vic!

But today, Vic had not found the shopping discounts as convenient as usual. Vic was participating in a new reality show: "Get me out of here, I know Nick Bauer."

His captors had been the first to be astonished at Vic's calmness. While his head had been covered with a backpack and his body heaved in the traditional black van as with all these situations, zen had taken ahold of Vic.

"Now that we have our target," said a female voice in the front of the van, "did you choose where you're going?" "We go to the house on the pier," replied the second assailant. "The old Jersey Shore barracks? The place is disinfected?"

- "The place is mostly full of cameras. It will be perfect to deliver our message to the whole nation." "Damn!" Vic Soontobedead said in the back of the van. "This is not the ideal situation. Now, I think the CTU will look to contact Nicolas."" A long day awaits him you don't you think? You should think about barricading yourself. You have a very important role in this abduction story.

```
Help the CTU, the Counter Terrorist Unit, track down Nicolas Bauer
By searching his contact in the phone book.subject
```

Chapter III

find_nicolas_bauer.sh

	Exercise 02
	find_nicolas_bauer.sh
Turn-in directory : *ex02/*	
Files to turn in : `find_nicolas_bauer.sh`	
Allowed functions : `None`	
Notes : `n/a`	

- Create a file `find_nicolas_bauer.sh` which will display the number for all Nicolas Bauer from the phonebook passed as an argument.

- Your program will be called `sh find_nicolas_bauer.sh phonebook`

You'll probably miss a few!
